

17AME + 保险丝 二合一保护器 Fuse combination

17AME+保险丝 二合一保护器是一种过温、过电流之保护器，它具有二次保护功能，更安全可靠。

产品特性

- 体积紧凑、长寿命和高可靠性;
- 串联组合保险丝，节省加工烦琐的问题;
- 双金属片100%具有快速跳脱性;
- 具备有感应电流及温度而动作之双重性能;
- 外壳是密封的，具备防水功能;
- 每款零件均严格执行欧洲ROHS的环保标准;
- 可根据客户的需求，提供各类不同规格的保险丝组合装置;
- 可依客户需求铆接各种不同长度规格的线材。

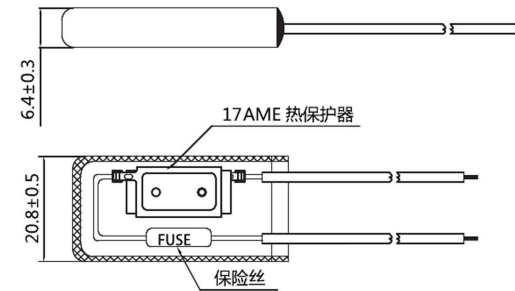

17AME+fuse is a combination of thermal protector and thermal cut off. It has double protections. Safer and more reliable.

Special features

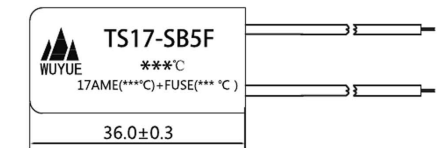

- Small size, long life and high reliability;
- Connected a cut off in series to save process in final applications.
- 100% Snap Action
- Both temperature and current sensitive;
- Sealed housing, water proof;
- The type of cut off is optional and customized;
- The types and length of wire are optional.

电气规格 Electrical Specifications

- 20A / 16V DC
- 10A / 250V AC
- 20A / 125V AC

技术参数 Technical Parameters

使用温度范围 Operating temperature range	温度保险丝 Temperature fuse
45°C~180°C, 可依客户要求提供其范围内的任一温度。	可根据客户需求 Customizing
温度公差 Temperature Tolerance	
±3°C, ±5°C	

应用范围

- 电热座垫 宠物垫
- 电热毯 小家电

Application

- Electric seat Pet Pad
- Blanket Small appliances
